

My Next LvL Prototype b report

- ☒ Create an account:

The user was able to create an account without issues by navigating to “*my account*” → and “*sign up*”. From there the user was immediately logged into the account.

- ☒ Login/logout

After logging in, the user was directed to the patient information page under the “*my account*” tab. The user had some difficulties finding the *logout button* due to its size and location but found it regardless. It is located on the upper right-hand corner of the page.

- ☒ Store add & edit:
 - Reminders: Medication refills & appointments
 - Allergies
 - Medications
 - Diagnoses
 - Insurance
 - Physicians
 - Emergency contact info

The user had access to all of the tabs listed above. Specifically had some trouble navigating back to the reminder page, which is not a separate entity. User was able to edit the information, but there was no option to add onto the data

- ☒ View resources:
 - Support groups
 - Medical conditions
 - General health information

The user had access to all of the tabs listed above. Each medical condition was accounted for and organized in a readable manner.
